

Diplomat shown with optional equipment.

The Stylish and Spacious Restroom

With even more interior space than the Prestige, our Diplomat restroom also upgrades with style and increased storage & waste tank capacity, up to 170 average uses! We listened when customers said they wanted toilet placement options. We heard them when they said they wanted a sink and counter that was more luxurious. We recognized the need for international shipping requirements. That is why we build the Diplomat.

Our Roomiest Stand Alone Portable Restroom Interior

Not having the toilet facing the door is an unexpected and pleasant surprise when first noticed. Your customer immediately knows this is not just another portapotty. With options for interior materials, upgraded counter top and toilet placement, our Diplomat model lets you choose how you want it built..

Specifications

Exterior Ht: 98", Int Ht: 78", Width: 58", Depth: 46.5", Weight: 800lbs,
Waste tank: 90G, Fresh tank: 55G, Door opening: 72x24", Avg # uses: 170

Craftsmanship is admitting when a machine helps do the job better. We now use computer controlled cutters for many of our panels.

The two large lockable access panels provide plenty of room for options and accessories. Power converters and step down transformers are among the many popular options on our Diplomat.
